REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: None of the prior art references of record, singly or combined, teaches or suggests an inorganic core-organic shell nanoparticle wherein the core comprises two components, a metallic compound and a metal, and the core is bonded to the organic shell by physisorption. The most pertinent references are the U6,743,395; US 6,871,773 and US 2002/0018896 which teach core shell nanoparticle comprising a metal core and an organic shell. However, these references teach bonding between the core and the shell by chemisorption, rather than by physisorption.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
